1. These general terms and conditions apply to rental agreements, between Columbus Car Rental BV ('Columbus'), as lender of a vehicle to a third party vehicle renter ('the renter').

2. The dates recorded with the definitive reservation (after the lender has received the prepayment) are binding. The renter is obligated to pay the number of agreed upon rental days, also if the car is picked up at a later time or returned at an earlier time. When the car is returned earlier than the agreed term then no restitution will take place for the non-used days of the reservation. De prepayment of the rent goes from the owed rent payment to the payment of other costs that the renter binds.

When the claimed amount of the lender is not paid in cash or is not met at the agreed time of day, the lender is, as of that moment the legal interest, multiplied with 2% on an annual base, over the outstanding amount is owed. When renter after summation fails to pay the remaining amount, the lender is authorized to increase this amount with the debt costs.

3. The car comes with third-party liability insurance and comprehensive insurance. **IS DEDUCTIBLE**

The car comes with third-party liability insurance and comprehensive insurance. Costs to the rental car, resulting from an accident, collision, theft, burglary or destruction are recovered to an excess of resp. Euro 500 for hull damage and Euro 250 for statutory liability damage (this excess counts per incident) from the renter, who indemnifies the lender in this matter, with damage to third parties although it is reimbursed by the insurer pursuant to the law, mat not be covered in this matter under the policy conditions. This occurs if the driver was under the influence of alcohol or drugs at the time of the occurrence of the damage, this damage will be fully recovered from the renter.

Note: Damage or loss of car key(s), refueling incorrectly (e.g. diesel instead of super) and a lock-out (key(s) in the car and doors locked) does not fall under not deductible and renter needs to pay for this.

4. It's not allowed to smoke in the car. Cleaning costs (Naf 500,-) will be charged and must be reimbursed by the renter.

5. Unless agreed upon otherwise in advance, the renter is required to pick up the car at the lender. A valid driving license is required for picking up the car. The renter is obligated to return the vehicle with all accessories no later than on the day and time that the agreement is terminated at the address of the lender, in the same condition, normal wear and tear excluded, unless an extension of the rental period is request by the renter in advance and this extension was granted by the lender. The rent period extended in this way remains subject to these standard provisions and is terminated at the time further agreed upon, which is binding.

If it agreed upon that the lender, after returning the car, will be given a ride, then the renter is required to exactly observe the agreed upon time, as noted on the rental contract. If the car is returned at an earlier or later time, then the lender is not required to give the renter a ride an then the renter is required to handle transport by themselves.

6. If the vehicle is not returned to the lender in the, possibly extended, period specified in the rental agreement, then the lender acquires the right to immediate taking back of the vehicle, with the rent automatically continuing under the same provisions up to the day and the hour that the vehicle is back in the possession of the lender NAF. 150,- is charged for each extra hour. If the car is returned at an earlier time, then the lender is not required to give any money back. Whenever the renter proves that exceeding the original rent period was the consequence of nonattributable breach, such as a technical failure of the vehicle which was already basically present upon conclusion of the rental agreement, the hourly rate specified in this article will not be charged. In addition the lender will assess, depending on the circumstances of the case, whether a (portion of the) daily rate is owed on that period.

7. During the time that the renter has the vehicle at his or her disposal, the costs for the use of the vehicle related to such things as engine fuel and parking are at the expense of the renter.

8. Only the person specified on the rental contract with name and driving license number is allowed to drive the car (with exception of the persons of the travel group), third parties who rive the vehicle and are not known to the lender are not insured.

The car has a passenger insurance. The renter indemnifies the lender for alle damage of passengers or third parties for which the lender might be liable.

If there are more drivers Columbus keeps the right to claim the deposit before renting the car. The renter is, at all times, the responsible and accountable person in regards to Columbus as contract party.

9. The renter indemnifies the lender for all fines imposed to the lender pertaining to criminal acts carried out during the rental period by the driver and/or occupant,

unless the fines and/or damage payable by the lender is a result of a defect to the vehicle which was already (at first instance) present at the effective date of the rental period.

10. The lender is entitled to immediately dissolve the rental agreement without notice of default or judicial intervention being required, without prejudice to the right to reimbursement of costs, damage and interests, if it becomes evident that the renter did not, did not timely or did not fully perform the obligations of the rental agreement during the rental period; in case of death, guardianship, request of suspension of payment or bankruptcy of the renter; or if circumstances occur before the end of the period, which the lender was not aware of at the start of the rental period, which are of such a nature that if the lender was to have been aware of this, that they would not have concluded the rental agreement.

The renter is then obligated to immediately return the vehicle with accessories, upon default of which the lender is entitled to reacquire possession of the vehicle with accessories. The renter hereby grants a power to attorney to the lender or a person designated by the lender to check the vehicle wherever this is located or to reacquire possession of the vehicle.

In the case the vehicle is taken back by the lender, all rights are reserved in the order to recover costs from the renter which have been incurred this way or loss suffered from the breach of the agreement.

In case of a defect to vehicle, interior and/or damage, happened to or originated with the rented vehicle, the renter is obligated to immediately notify the lender of this (during office hours - Mon – Sun / 08:00 AM – 06:00 PM).
